

Banner Directions

1. Decide which words you wish to hang on your wall.
2. Print a background picture for each letter.
3. Print out the letters you need.
4. Cut out all letters and backgrounds.
5. Use gluestick or double sided tape and attach your letters to the top of your backgrounds.
6. Punch holes in the upper left and right of each background.
7. Thread your string or yarn through each hole. You can tap the string or yarn to the back of the picture to keep it from slipping should you have trouble.
8. Be sure to let dry before hanging.

*To make your letters stand out, you can fold small pieces of paper to place behind your letters to help make them stand up from their backgrounds. Best when printed on cardstock paper.
